# PERFORMANCE YOU CAN WEAR

When it comes to KTM PowerWear, the **READY TO RACE** approach works its way into the very fibres that make up the range.

When you break it down, being **READY** requires intense preparation – a process KTM realizes through hours and hours of research, design, and testing. It also suggests function and protection, where every garment is perfectly primed to take on the challenge of any ride.

The **RACE** element is found in the performance factor that forms the basis of every KTM product. Enhancing the ride is an absolute priority and is the attitude that shapes the design and development process.

KTM PowerWear embodies the brand's values in true **READY TO RACE** style. Quality products designed in-house to deliver **PURE** race-inspired **PERFORMANCE** in a way that reflects the **EXTREME** nature of our **ADVENTUROUS** spirit.

# AVIATOR 3 HELMET

## THE PERFORMANCE STANDARD FOR OFFROAD HELMETS JUST GOT ANOTHER BOOST.

With 103 world titles, **AIROH** is already a proven champion. Like all winners, they understand that staying on top is often more challenging than the journey to get there. That's why the **AVIATOR 3 HELMET** raises the bar once again – redefining the standards for offroad helmets.

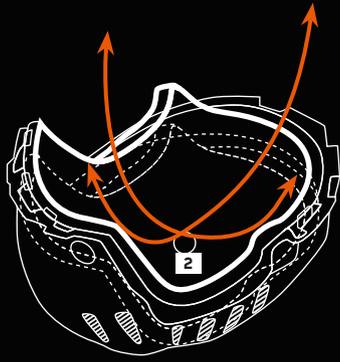

The lightweight helmet features a noble HPC carbon composite outer shell, which is available in four different sizes. It was refined in **AIROH's** own wind tunnel to engineer the best shapes and performances. The special attention to aerodynamics resulted in a helmet that is stable at high speeds and has highly optimized thermoregulation.

**AIROH's** latest technological advancements all feature in this new product, where the second generation

**AMS2 Plus** (**AIROH** Multi-action Safety System), the **AEFR** (**AIROH** Emergency Fast Release), and the **AMLS** (**AIROH** Magnetic Lining System) combine to make this helmet a real innovation topper.

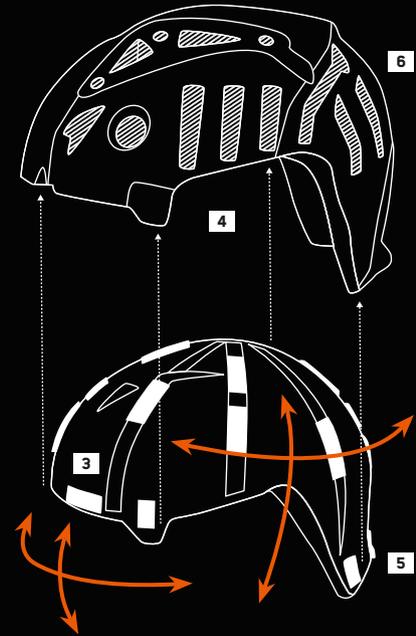

The eight air vents, back spoilers, and integrated extractors all give the **AVIATOR 3 HELMET** a comfortable feeling, even in the most extreme conditions. This is further aided by the innovative **AHS** (**AIROH** Hydration System), which is integrated into the **EPS**.

With its striking **READY TO RACE**-inspired graphic, the new **AVIATOR 3 HELMET** doesn't only feature standout performance, but **KTM's** distinctly bold style.

## AMS2 PLUS SYSTEM

AMS2 Plus is realized with an advanced material, engineered to dissipate the kinetic energy of an impact and, with its memory foam, to guarantee an adaptive fit and supreme comfort.

# TERRA ADVENTURE JACKET

**“IT’S THE MOST VERSATILE  
ADVENTURE GEAR I’VE EVER USED”**

CHRIS BIRCH

The mindset of a true **KTM** adventurer is to push each ride to new levels – the same attitude **KTM** adopts with every new product it develops.

None are more evident of this approach than the new **TERRA ADVENTURE JACKET**. Innovation that boasts world firsts, with versatility and ventilation that is simply off the charts.

The innovative **YKK-QUICKBURST®** zippers on the chest and rear shoulder area can be opened extremely quickly with one pull of the special puller, enabling fast and effective ventilation options.

The lightweight waterproof shell can be stored in the back pocket or zipped on the front of the jacket. It can be worn both under and over for optimal protection against wind, weather, and dirt. This revolutionary new jacket also fits perfectly with the **TERRA ADVENTURE PANTS**.

## OPEN ON THE GO

Every mile spent behind the handlebars of a KTM is a thrilling adventure that motivates riders to keep on going. This was the mindset that inspired the innovation in the **TERRA ADVENTURE JACKET**. Maximum versatility and protection with ventilation that can be accessed on the fly. Simply pull on the chest tags to instantly open front vents, while one tug on the upper tags opens the rear shoulder vents.

## MAXIMUM AIRFLOW

When the ride really heats up, the **TERRA ADVENTURE JACKET** has a maximum airflow option. By unzipping and rolling down the rear flap, a large portion of the back opens up. This allows cool air to enter the front and warm air to escape quickly out the back. This prevents sweat build-up and keeps a constant flow of air around the body. Optimum riding temperature achieved!

DRIVEN BY CURIOSITY

A rider wearing a black and orange KTM helmet and jacket is riding a KTM Duke 390 motorcycle through a forest. The motorcycle is black with orange accents and features the 'Duke' and 'KTM' logos. The background is a blurred forest scene, suggesting motion. The word 'Duke' is partially visible in large white letters on the left side of the image.
